SUMMARY

I'm a fresh graduate and ambitious front-end web developer specializing React and Vue.js. My objective is to continously learn new things and gain experiences to become a more valuable developer in future, And to utilize my learnings for the growth of the organization and myself.

EDUCATION

Bachelor of Science in Information Technology   2019 – 2023
Binalatongan Community College

EXPERIENCES

Full-stack Developer *(Hands-on Exp.)*   Jan. 2023 - April 2023
Alumni Tracker System *(Capstone Project)*
I developed a system for administrator that organizes alumni data and allows the user to post an announcement of events. I also developed a portal site for alumni that contains announcement of events and allows the user to update their employment status.
- ✓ Created conceptual design of the project (prototype).
- ✓ Implemented the database structure with MySQL.
- ✓ Front-end Development with HTML, CSS, JS, Bootstrap.
- ✓ Back-end Development with PHP.

PROJECTS

- **KanbanHub**
  is a task management tool app for recording and organizing projects. Built in React, TypeScript, Zustand, Tailwind.
